Mr. Jeff Leed
Exide Corp
POB 14205
Reading, PA 19612-4205

Dear Mr. Leed:

In our recent conversation, we discussed the possibility of your company utilizing some of the on-site materials remaining at the NL Industries Superfund site, located in Pedricktown, New Jersey. Attached are a description and some analysis of these materials. This material is in addition to slag piles discussed in my letter of September 24, 1990.

If you have any further questions or need any further information, please call me at (212) 264-6418.

Thank you for your interest in this matter.

Sincerely yours,

Michael H. Gilbert
Project Manager
Southern New Jersey Compliance Section
